

Stay Safe Online: Internet Safety Guide

The internet is a fun place to learn and chat. But staying safe is important. Here are some tips to help you stay safe online.

Keep your information private.

Never share your full name, address, phone number, or school with anyone.

Be careful. Not everyone online is who they say they are. If someone you do not know messages you, do not reply. Tell someone you trust.

Think before you share pictures or videos. Once you post them, you might not be able to delete them. Only share with people you trust.

Use strong passwords. Make a password with letters, numbers, and symbols. Do not share your password with anyone except a trusted adult.

Watch out for scams and fake news. If something online looks too good to be true, it probably is. Do not click on links from people you don't know.

Be kind online. Treat people with respect. If someone is being mean or bullying you, do not reply. Tell someone you trust about it.

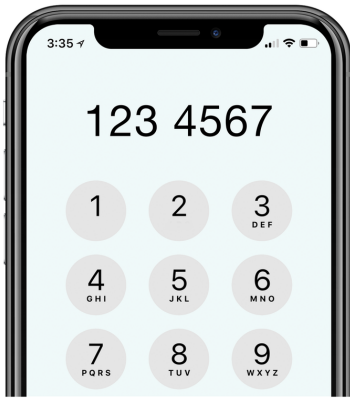

Know where to get help if you feel unsafe online. Talk to a parent or carer. You can also talk to a teacher or support worker.

You can also talk to a trusted friend or family member. They can help you feel safe and supported.

For extra help, you can call Childline at 0800 1111. They are there to help you if you are worried or scared.

You can visit NSPCC at <https://www.nspcc.org.uk/keeping-children-safe/online-safety/> They have information to help you stay safe online.

Remember, staying safe online is important. Always think before you share or talk to someone new.

The internet is a great place to learn and have fun. Just remember to stay safe and be careful.

By following these tips, you can have a fun and safe time online.

Stay safe and enjoy the internet!
